

I WANT TO SLEEP RIGHT NOW*Büşra Tosun*

Bom Bom Bom

These sounds make me sleepy

I do not know whether I wake up again

I know it is worse not to sleep

I close my eyes

I want to sleep but now

Stop! Not now

Too much time for sleep

Not yet night.

Will be nightfall?

Sun is shining as if it would not set

Over the scarlet soil

Why is everybody sleeping?

Go on! Not yet night

I want to sleep too

But now I want as you

Sun grants its stroke over my body

I do not want to wait the night

As though I have no staying power

Close to you more

More close to ground now, huh?

Make place for me

I want to sleep too

I know living is more painful...
